

# SPACE INVADAS

announce highly anticipated debut LP

## SOUL:FI

**Katalyst** is the Sydney based producer Ashley Anderson of international acclaim. All of his solo releases have been nominated for ARIA Awards in Australia and there's a strong fan base established for his work worldwide. He also runs the Invada label in Australia with with Portishead's Geoff Barrow

**Steve Spacek** originates from London landed in Sydney via and LA. He has worked with the likes of J Dilla, Mos Def, Slum Village, Common and many more. He is likened to classic soul singers Curtis Mayfield and Marvin Gaye and has been championed by everyone from Entertainment Weekly to Mos Def.

Entitled Soul:Fi the album features an impressive cameo cast of guest talent, including

the likes of Detroit rappers Dank (Frank & Dank) and Buff 1, Australian soul divas Jade MacRae and Fantine and Australian Jamican RuCL. On Soul:Fi Space Invadas successfully create an innovative, unique, futuristic sound by fusing bonafide Soul and laid back Hip Hop.

Space Invadas album Soul-Fi is receiving rave reviews and airplay from tastemakers round the globe as well as having 4 singles smashed on national radio in Australia where the record has been released earlier this year. The album is being championed abroad by likes of Giles Peterson on BBC1, Garth Trinidad on KCRW in LA, Tyler Askew in NYC, Andrew Jervis (Ubiquity) in San Fran to name just a few. Getting much love in the US and throughout Europe where the record isn't even out yet. Looks like a big year ahead for Space Invadas.

In Australia Space Invadas have had the cover of most of the nations street press and have been critically acclaimed in all the broadsheets. They have also been nominated for an ARIA Award (Australian Grammys or Mercury awards) for best Urban Release in 2010.

The film clip for the Aus single "Done It Again" was directed by Nick Fogarty who has won awards for his previous film clip work in Australia

The live format is 5 piece band made up of drums, bass, guitar, samplers and other electronics. With Steve Spacek on frontman duties.

They have toured around Australia many times on all the major national festivals of 2010, including Future Music, GTM, Days Like This and Splendour In The Grass.

Some of the reviews from press in Australia -

"looks like being the sound of 2010" **Metro, Sydney Morning Herald**

"Soul:Fi is a stone cold classic and early contender for album of 2010"  
**3D World (Album of the Week)**

"a really great, cohesive album".... "A savvy funk soaked debut"  
**The Age, Melbourne**

Their music is a distinct brand of intergalactic soul. Imagine if Gnarlz Barkly and Mark Ronson had a jam session in the 60's at Area 51 and you'll be somewhere close

**Inthemix**
